USEFUL TIPS

- Start the process as early as possible. Delays with lab results or vet appointments can push back your timeline significantly.
- Research airline pet policies early. Some airlines have limited cargo spots, especially in summer. Temperature embargoes apply above 30C / below -5C at any transit airport.
- Start crate training weeks before travel. A calm, crate-confident dog will have a much less stressful journey.
- Non-EU arrivals into Czech Republic must enter through an approved Border Inspection Post (BIP): Prague-Ruzyně (primary), Brno-Turany, Ostrava-Mošnov, Karlovy Vary, Pardubice.
- Make 2 copies of every document (microchip cert, vaccination record, AHC, airline confirmation). Keep originals in your carry-on and copies in checked luggage.
