## USEFUL TIPS

- Start the process as early as possible. Delays with lab results or vet appointments can push back your timeline significantly.
- Research airline pet policies early. Some airlines have limited cargo spots, especially in summer. Temperature embargoes apply above 30C / below -5C at any transit airport.
- Start crate training weeks before travel. A calm, crate-confident dog will have a much less stressful journey.
- If your dog is a restricted or mixed breed, get a breed DNA test and official documentation before traveling. Border officials in Romania can refuse entry for banned breeds.
- **IMPORTANT:** Romania requires mandatory quarantine for pets. Plan well in advance and budget for quarantine costs.

## PRE-TRAVEL CHECKLIST

### EARLY PREPARATION

- Confirm your dog's breed is permitted in Romania
- Research airline pet policies and book cargo/cabin spot
- Purchase IATA-approved travel crate (correct size for your dog)
- Begin crate training
- Submit pre-arrival notification (48-hour advance notification to border inspectors required)
